Season Preview:

The 2009 season was a learning experience for last season's team. Every player on last year's roster experienced the first year competing at the ASA level. Most of 2010 roster enters this season with one year of experience under their belts, which should prove invaluable going into the 2010 season.

Leading the way for this year's version of the U10 Bandits will be Tess Baker and Kelly Schiller returning to the circle to lead the pitching rotation. Katherine Brandl gained some experience in 2010 and looks to secure a larger role in 2010. Payton Kastenschmidt and new comers Taylor Romens and Kayla Schwebke look to add depth to an already deep and talented rotation.

The Bandits lack experience behind the plate as they look to replace players that moved up an age group. In 2010 a strong armed and very athletic group of catchers will make up for the lack of experience. Payton Kastenschmidt, Abby Weinert and Emily Bjork are all seeking time behind the plate and look to provide leadership from that position.

In the infield the Bandits return a solid group of veteran players. At the corners, Cassie Renforth provides stability at first base and will get help from Tess Baker and Emily Bjork. At third base, Payton Kastenschmidt moves over from short stop and will receive help from Kayla Schwebke and Ally Gough. In the middle the Bandits return a ton of experience led by Abby Weinert, Tess Baker and the ever versatile Katherine Brandl. All will see time at both short stop and second base. New comers Megan Little, Taylor Romens, and Melanie Renforth will provide the Bandits with depth and versatility.

Returning to patrol the outfield for the Bandits in 2010 will be the speedy Ally Gough. She will be helped by a plethora of versatile players including Megan Little, Abby Weinert, Payton Kastenschmidt, Katherine Brandl, Emily Bjork and Kelly Schiller. This group will provide a lot of athleticism and speed to an outfield that looks to be much improved in 2010.

Look for the 2010 Bandits to be much improved on offense in 2010 as the line up shifts to a seasoned and experienced group. Last year the Bandits excelled at the short game, look for this year's line up to add some offensive pop and some timely hitting to go with an explosive short game. Once the Bandits are on the bases look for speed and aggressive base running to disrupt opposing pitchers and catchers.

The 2010 Bandits will be a deep and talented group. They work incredibly hard and learn more about the game every day. Stay tuned as this group of young ladies look to turn heads in 2010.
